We are delighted to announce the 9th Australasian Lymphology Association Conference will be held in Cairns, Queensland, 24-26 May 2012. The scientific committee is working towards an interactive program presenting current information about **'Hot Topics in Lymphology'**.

Lymphoedema management: different options for hot climates

- Learn more about kinesio tape, changes to garment construction and international approaches in lymphoedema management

Melanoma and Uro-genital cancers

- Medical management
- Lymphoedema risk

Lymphoedema education

- Prevention
- When should we educate? And how?

Come ready to contribute to 'hot' panel debates

- What are we measuring?
- How should we measure?
- What constitutes a diagnosis?
- Where does the fluid go?
- Does climate change matter?
