

The Austin/Monash Wound Management Clinic is one of Australia's highest profile wound clinics.

This multidisciplinary service draws in expertise from many directions and allows us to showcase this talent at regular seminars.

These seminars are directed at Health professionals working in the community and residential care as well as those in the hospital field.

Expected outcomes from attending will include new and enhanced knowledge of the latest in wound assessment and care. It will provide an opportunity for networking with other Health professionals and interaction with trade representatives.

This conference is aimed at the Health Professionals who wish to advance their knowledge and understanding of current issues in Wound Health

The organising committee would like to thank the generous sponsorship of
