

First
International
Symposium on
Pediatric
Wound Care

Rome, February 10th, 2011

Dear AWMA President ,
Bill McGuiness
secretary@awma.com.au

Object: *Formal Request for Patronage*

Dear President,

Next October from 27th to 29th, Rome will host a pediatric wound care meeting, named **ISPeW**, *1st International Symposium Pediatric Wound Care*, as we have already written on our first invitation. The event has the mission to bring to our capital city delegates involved in pediatric wound care from all over the world, in concurrence with the 2011 European Year of Volunteering.

In particular, this is a scientific and no-profit event and will encompass for the first time the majority of topics related to neonatal and pediatric wound care, including patients affected by chromosomopathies, genetic disturbances, neurological impairment, war lesions and animal bites.

The principal themes of the event will be:

1. PREVENTION
2. PRESSURE ULCERS
3. RISK ASSESSMENT
4. INFECTED SKIN LESIONS
5. TOPICAL THERAPIES
6. BURNS
7. NPWT
8. OSTOMIES
9. SKIN SUBSTITUTES
10. REGENERATION
11. ADVANCED BIOLOGICAL THERAPIES
12. SCARS and SCARRING
13. NUTRITION
14. SPINAL LESIONS
15. GAUNTLETS in WOUND CARE
16. DISABILITY AND WOUND CARE
17. THE PAINLESS HOSPITAL
18. COMBAT WOUNDS

First
International
Symposium on
Pediatric
Wound Care

Speakers will be invited from all parts of the world, the expected attendance will range from six hundred to one thousand delegates, and the official languages of the congress will be English and Italian, with simultaneous interpreting.

The symposium venue is the Main Aula Giovanni Paolo II, ANGELICUM Congress Center, Pontificia Universitas S. Tommaso D'Aquino, Rome, Italy. The venue is in the heart of the Eternal City at walking distance from the Forum of Traianum, the Quirinale Presidential Palace, Michelangelo's spectacular Campidoglio Square and the most important museums and art galleries.

Considering the importance of this event, **we are kindly asking for Your honourable Patronage.**

We would really appreciate if you could promote this event at your members, employees, research workers and students (also with a publication on your website) with the aim of assuring the widest diffusion of this program. Important is an effective and equal collaboration with the intention of increasing scientific support to activities, training programmes, work groups, policies, organisations, conferences, journal articles and so forth.

We hope that our request will have a positive reply

Please reply by February, 28th 2011 to CCI Organizing secretariat at:
