Wendy White RN BEd MWoundCare (candidate)
MRCNA

Wendy is a Nurse Consultant & Educator in private practice, living in New South Wales, Australia. She has over 20 years of clinical and educational experience in wound management, and has a keen interest and passion to better understand the person's perspective, when living with acute and / or chronic non healing wounds.

She is a past President of the Wound Management Association of Victoria (WMAV), an active member of the Australian Wound Management Association and an invited expert on both local and international committees and advisory groups. She has presented at regional, state, national and international wound conferences, and is a respected invited speaker in the region.

Wendy is proud to be a nurse, while acknowledging and actively promoting the essential role of all members of the person centered interdisciplinary team, placed in the privileged position of caring for those with wounds.

The TWCA are proud to be able host Wendy in Tasmania where she will share some of her immeasurable knowledge and incredible enthusiasm for wounding and wound management.
